

Petition to Murrysville Council Regarding *Fracking* in Residential Areas

Sponsored by Murrysville Watch Committee

I, _____ am a resident of Murrysville
(print first and last name)

living at:

(print address)

I object to permitting unconventional natural gas development and production (commonly referred to as "fracking") in designated rural-residential areas covering over one-third of Murrysville.*

* It would expose residents and the environment to the risks and harms of a heavy industrial process and change the *character* of parts of Murrysville's rural and residential areas to industrial.

I believe the minimum setback distance between well pads and homes should be greater than 2000 feet to protect residents' health, welfare, and safety.

My Email (optional): _____

My Phone Number (optional) cell: _____ home: _____
